f.	Management's perception of risk factors;	The Company is in the business of manufacturing and dealing of specialty chemicals in the domestic as well as in international market. The specialty chemicals requires certain raw materials which are susceptible to fluctuations in prices and also since the nature of the raw material is highly sensitive and hazardous, the same cannot be imported. The Company faces stiff competition from domestic as well as international players. However, the Company has over a period of time through its constant efforts on R&D has established its Branc name in the Chemical industry. The Company has in-house Research and Development Team consisting of highly experienced professionals which is responsible for innovation of various new products, simulations, process and variants of chemicals useful in different sectors and industries. The Company has a Multi-product plant at its disposal which helps to cater to the needs of variety of customers. In addition to this, diversied product portfolic and large customer base are main strengths of the Company. Since the Company has a par of its income from the international market, the Company is exposed to foreign currency fluctuations which largely gets mitigated by imports. The Company thus has natural hedging between exports and imports in order to offset the effects of Forex fluctuations.
